Meet the Illustrator of “Marmalade Jam”

Kara Hayden, Artist & Preschool Teacher

Kara Hayden is a multi-dimensional artist, working as comfortably with illustrations for a children’s book as with fantasy make-overs for horror shows and special events. In addition to being a talented artist, Kara is also a preschool teacher who loves working with young children. Kara Hayden’s contact information and portfolio can be viewed at her website: KaraHaydenCreations.com

Meet the Creator and Author of “Marmalade Jam”

Darleen Claire Wodzinski

MS ESE, MA CMHC, QPPE, PhD Candidate

Darleen Claire Wodzinski is the author of the therapeutic children’s story “Marmalade Jam” and creator of the charming character Juno the Fluffy Bunny. The founder of Orchard Human Services, Inc., she is a writer, professional speaker and trainer, exceptional (special) student educator, and clinical mental health counselor with a specialization in Reactive Attachment Disorder and other developmental challenges of childhood.

Learn more about Darleen Claire at the 501(c)3 nonprofit: OrchardHumanServices.org

Or at the websites: DarleenClaire.com & PNEinstitute.com

This book is dedicated to the incredible child who lived the real life behind the “Marmalade Jam” therapeutic children’s story - the brave and wonderful little one who realized one day that Marmalade really was ... Jam ... Marmalade Jam.

Note to Parents, Caretakers & Teachers

Recovery from childhood trauma, abuse, neglect, or food insecurity requires focused, gentle, and compassionate care. The “Marmalade Jam” therapeutic children’s book series provides children with a safe space in which to explore the charming yet challenging experiences of Juno the Fluffy Bunny as he heals from early childhood trauma and food insecurity. Children who may not feel ready to discuss their own challenging experiences are often willing and able to talk about Juno’s experiences, feelings, and healing process.

This companion coloring book provides children with an important creative and brain-based experience to support the healing process. This type of healing tool supports children’s recovery in a number of ways. Coloring is a creative activity that engages the creative brain centers, recruiting more support for healing and recovery. Meanwhile, children are joyfully distracted by the images, colors, and coloring process, allowing them to feel calm and focused as they listen to the story.

Juno teaches us all how to move from a place of fear toward a place of safety, love, and joy. As he learns to associate sweet love with the taste of Marmalade, Juno slowly heals from his traumatic past. He eventually links the sweet taste of Marmalade to the frightening memory of Jam – giving rise to his joyful discovery of “Marmalade Jam.” In this way, Juno was able to *reframe* his negative experience with “jam” by pairing it with the loving and positive notion of “Marmalade” so patiently and carefully encouraged and promoted by his loving family.

Juno the Fluffy Bunny

Grandma Fluffy Bunny

Grandpa Fluffy Bunny

Juno feels scared when he remembers the angry house.

Juno hid under the bed when the Angry Bunny
smashed things in the Angry House.

Grandma helps Juno with his feelings.

Juno learns that his life in the
Loving House is sweet and filled with love.

Juno has many sweet and happy thoughts.

Marmalade Jam is sweet and delicious.

Juno enjoys the sweet and delicious taste of
Marmalade Jam on whole wheat waffles.

Grandma and Grandpa tell Juno sweet bedtime stories
so he can feel safe, loved and happy when he sleeps.

Juno has sweet and happy dreams.

Good night Juno!
